### Goals:

- To work in the field of software engineering and develop interesting and useful applications. To further my career as a programmer and software engineer.

### Qualities:

- Strong background in computers and programming, specifically object oriented languages such as Java and C++, C#.
- Have been programming with Java for over 8 years
- Experience with procedural programming in C, and logic programming with Prolog.
- Familiar with graphics programming using C++, OpenGL, 3DS Max and Adobe Photoshop
- Well versed in User Interface design and best practices
- Good knowledge of web technologies such as HTML, CSS, JavaScript/jQuery and Php.
- Quick learner, good communication skills
- Hard working, make good use of resources to solve problems
- Ability to keep track of several assignments, and get them submitted on time.

### Education:

- Graduating with BSc Computer Science with Honors at Brock University
- Have taken several Java courses, have also taken Advanced Data Structures, Advanced Object-Oriented Programming, User Interface Design, Mobile Development in Android and Software Engineering.

### Work Experience:

- Help Desk Teaching Assistant: Brock University
  - January 2014 – Present
    - Provide help for various programming and computer science questions during scheduled times
    - Answer questions regarding programming languages such as Java, C, C++, Prolog, Python, and web programming
    - Give help for general programming style, object-oriented concepts, and algorithm analysis

- Marker/Grader: Brock University
  - November 2013 – January 2014
    - Marker for Advanced Data Structures in Java class at Brock
    - Responsible for running student's code and calculating their grades
    - Required to give objective marks based on the marking scheme, and return the grades on time.
- Aquatics Supervisor: Americana Waterpark and Resort
  - November 2006 – Present
    - Supervised patrons and lifeguards in the waterpark
    - Directly responsible for patron safety and first aid on minor to major injuries, and controlling a first aid situation
    - Responsible for keeping track of my staff and ensuring they stay focused on patron safety
    - Utilize communication skills regularly with lifeguards and guests
- Sales Associate: Home Depot
  - August 2008 – May 2011
    - Worked in several departments helping people solve various renovation problems
    - Recommended solutions to problems while being put on the spot
    - Requires good communication skills and professionalism with customers and staff
    - Received several awards for customer service, problem solving and professionalism
